Bogota Not Yet Taken-Expected Descent on the 1sthmus - Great Excitement Among the People-Mensures Against Southern States Privateers, &c.

OUR PANAMA CORRESPONDENCE.

Panana, May 15, 1861.
All regular mail communication with Bogota being still suspended, the only intelligence received from there and the seat of war is through private sources. The latest advices from the capital are to the 15th of April, brough: by Mr. Jas. E. Chambers, bearer of despatches from General Jones, resident Minister of the United States near the government of the Granadian Confederation. The general aspect of affairs is about the same as at last reports. General Mosquera had not marched on Bogota on the 17th of April. On that day Mr. Chambers, accompanied by General Jones, visited his headquarters, which were catablished at Villeta, within two-days' march of the capital, for the purpose of getting his passport wied. He represents Mosquera's force to be quite targe and enthusiastic, while the government force at Bogota, he says, is composed principally of persons who were pressed into the service against their wishes, from which he infers that Mosquera will achieve an easy victory. Other accounts, however, state that the citizens of Bogota are united in their opposition to the revolutionists, and have resolved to defend the city. Mosquera had declared his intention to take up his line of march towards the capital on the 19th of April, having become satisfied that the city would not surrender, as he had vainly hoped. The government troops are commanded by brave and skilful generals, and Mosquera, before he captures it, will meet with a desperate and determined resistance. All the towns on the Magdalena river are still in possession of the revolutionists. Several engagements are reported to have taken place in the States of Antioquia and Santander lately between the government troops and the revolutionists, in which the latter are said to have triumphed. These accounts, however, have been received through a revolutionary source and should be taken with many grains of allowance

and should be taken with many grains of allowance. Until the decisive battle is fought at or near Bogota, it is impossible to any which party will succeed. It is creaty generally conceded, however, that the revolutionists have at present decidedly the advantage. The English steemer Talisman, from Carthagena, which port she left on the 9th inst, arrived at Aspinwail on the 11th. She reports five vessels of war being fitted out at the former part, with a force of one thousand men. It was removed that their destination was Chagres or aspinall, such their object the searce and subgration of this latence. This intelligence produced a profound sensation here, which was greatly increased on the 12th by the receipt of a delegraphic departed from Aspiawall, com manere, which was greatly increased of the 12th by incre-cept of a felegraphic despatch from Aspiravall, com nu-cleating the news of the departure from that port, without orders, of the Grandian achooners-of-war Presi-dent Ospins and Lightliniaid. Various are the conjec-tures as to the destination of these vessels. It is the opinion of many that they have gone to Garthagena to be turned over 12 Nieto, the revolutionary Governor of the State of Boileys. Others again thus that they have gone

opinion of many that they have gone to Carthagea to be turned over to Nieto, the revolutionary devernor of the State of Bolivin. Others again think that they have gone to Santa Maria as most of the persons on board belong to that place, whence they were brought to this Isthmus and detained as soldiers against their will.

Captain Ingleties, the commender of the naval forces of the confederation, who had churge of these resards, was in Fanama at the time of their escape, where he is detained by order of the interior description, as supported of having contived at their desertion. A small steamer, in a disabled consistion, is the only Granacien war vessel at present at Aspin wall, which leaves that place he a defencelose condition; and should the expedition now being fitted out in Carthageni actually sail for aspinwall, it will probably effect a landing, unless the American vessel of war there now is the after ship Fainnouth. A British ship-of war is duly expected to arrive.

THOUGHARD PROPER PERFORMS—RUSHNESS FAILURES, ETC.
In the election for Deputies to Congress, the government party has achieved a most signal victory throughout the entire republic, the opposition having failed to elect a single Bepaty. The election for municipal officers

for the various cities and towns is soon to take place, when a similar result may be expected.

So Vara persistently refusing to accept the nomination for the Presidence by the government party. So D. Jouquim Perez, a distinguished citizes of Chile, has been formally nominated by that party. His nomination is

well received by all parties, and there can scarcely be a doubt of his election. He is said to be emissing fitted for the office, being patriotic, moderate and conciliatory. The late terrible caribushes at Mondon, Argentine Confederation, has produced a profound mantion throughout Chile. Large sums of money for the relief of the survivors have been subscribed by the government and people, all classes having contributed something. Il is now said that the number of persons destroyed by the caribquake was eleven thousand, musted of eight thousand, as originally reported. Notwithstanding the depressing influence upon trade of the late heavy failures, the condition of the country is regarded as promising, and confidence, it is believed, will soon be re established. The government has granted an amnesty to the political retugges from Chile resident in Mendoza. It comes too late for all of them to realize its benefits, as large numbers of this class are supposed to have periahed by the earthquake.

The market of Valparaise is very full. Heavy failures among landed proprietors have recently taken place, in addition to those of either classes aiready reported, which have caused a want of confidence for the time being, the consequent withdrawal of capital from circulation and the increased rate of interest. The scarcity of money his caused a gederal decline in the prices of Chile produce. Browned the capital of this republic, are large to the capital of this republic, are

BOLIVIA.

Advices from In Paz, the capital of this republic, are to the 15th April. Congress was to have met on the 1st of May. General Acha it was thought, would be elected provisional Prosident. The country was apparently quiet, but it was generally believed that there would be trouble on the meeting-of Congress.

General J. Cotton Smith, Minister Resident of the United States, was expected to leave the country in June.

There is nothing of interest to report from this country General Echinique is at il detained as a prisoner on board a Peruvian war vessel, at the friand of San Lorenzo.

Trade is exceedingly dull at Calino, there being but one American merchant vessel in port, and only two at the Chirchan; and, as already reported, there are to be no more guano causters given for two years.

It is rumored that the Peruvian steam frigate Callao has been raised, but the rumor needs confirmation.

The shock of the earthquake that destroyed Mondoza was felt throughout Peru, but caused no serious damage.

The quarrel belones the church and State of Honduras still continues. The attitude of both parties is warlike, and, as you so aware, they have bad some fights, but it is now rumored, and upon good authority, that Guatenusla and Ran Salvador are going to join the different belicose parties. Carrera upindes the State, while Barrios upholes the church. This however, is hardly characteritic of the two Presidents, but still it as of General Barrios has already concentrated seven hundred men on the frontier. Gavett still remains in jail, but will be set at large shortly.

Vinconte Aguilar, said to have been the wealthiest of the inhabitants of Costa Rica, late Minister of Finance and War for that republe, died suddenly at his residence in the city of San Jose, of disease of the heart.

Police Intelligence. A TEN THOUSAND DOLLAS FRAUD - Erestus Wheaton, a shipping merchant, residing at No 114 Fast Thirteenth street, was arrested Tuesday, charged with having fraudulently obtained two five thousand dollar promis sory notes, signed by Mosses. Wm. T. Coleman & Co. from those gentlemen. It appears in affliavit that Wheaten was indebted to Mesars. Coleman & Co. in the above sum, but wishing an extension he proposed to take their notes, and after getting them discounted at his bank, to deliver the proceeds to them. On those terms the notes were given him, but instead of getting them discounted at the bank, he get them shaved and appropriated the amount received to his own use. Justice Councily, before whom the complaint was made, held him to bail in \$12,000 to answer.

### FINANCIAL AND COMMERCIAL.

FRIDAY, May 24-6 P. M. At four o'clock this afternoon the last of the deposits on account of bids for the new governent loan was made with the Sub-Treasurer at this point. According to the usual custom, Mr. Cisco declines to disclose the amount of the bids; they will not be known till to morrow evening. It is understood that the combined bids from the banks will amount to over \$4,250,000; the combination bid of Mesars. Ketchum & Co. is understood to exceed \$2,000,000, and rumor aserts that other outside hids may amount to another couple of millions. Boston wants over four millions, and Philadelphia and other cities something in addition. Altogether the negotiation of the \$9 000 000 offered is secure. It is understood that most if not all the Boston bids are for Treasury notes. The other bids are for the most part for 6 per cent stock; they are believed to range from 85 to 87, most of them being between 851/2 and 86. From all that we can learn, very few bidders have sent in alternative bids. All seem to have asked either for stock or for notes. The New York city banks, after many conferences, could not agree at a rate to bid at, and it was finally determined that each bank should be free to bid any rate over 85. The negotiation will not be as brilliant as the last two, but it will not be unsuccessful.

There is nothing new in money to-day: very little doing, and no failures of consequence reported. The steamer Champion, from California, arrived to-day with \$354,000 in specie.

The demand for foreign bills for to-morrow's teamers was light. Bankers ask 106, but several leading houses sell at 1051/2 a 1/4. Produce bills are bought by the bankers at 1041/ a 105.

The stock market was lower to-day, and business was dull; the advices of the advance of the federal troops into Virginia naturally checked the tendency to buy. Nothing but the heavy short contracts of the bears has sustained the market for some time past. Non-dividend paying stocks, in time of war, would be selling at 10 per cent below their present prices, were it not for the demand for them created by the excessive sales of the bears. At the morning board Virginias fell 11/4, North Carolinas 1, Missouris 1/4, Pacific Mail 1/4, New York Central 1/2, Erie 1/4, Hudson 34, Harlem 34, Reading 36, Michigan Central 1½, Michigan Southern ¼, guaranteed ¼, Rock Island ¾.
